Dear Members

Warm greetings to everyone for the start of yet another new year !

Looking ahead in 2011, PPK is excited with many of the developments in the shopping industry. The government's abolishment of duty for more than 300 tourist related items is touted as a bold and strategic initiative to promote Malaysia as a key shopping destination regionally.

It is foreseeable that such initiative would improve tourism yield amongst a higher tourist arrival. With this cost competitive advantage, tourism products are competitively priced to trigger higher volume purchase and increase Malaysia's attractiveness as a shopping destination for tourists. Domestic consumers also stand to gain as they now have an attractive option to shop at home.

PPK lauds the government's move especially the Ministry of Tourism for lobbying and delivering such a good impetus to boost the shopping industry and the tourism industry.

2011 is forecasted to see more stability after two years of economic uncertainty arising from US and Europe. Although, the economies of US and Europe remain challenged, the twin growth economies of China and India in Asia are expected to provide much relief and stability to the region. The IMF forecasts growth rate to be 4.2% world wide with China and India growth registering at 9.6% and 8.4 respectively while US lags behind at 2.3% and Europe 1.5%.

Closer to Malaysia, 2011 is expected to see growth moderating after a good showing due to lower demands for export. However, a strong economy, low unemployment, ease of credit and strong consumer sentiments will continue to provide the shopping industry with the impetus to grow.

However, not all is rosy as the Valuers, Appraisers and Estate Agents Act 1981 continued to be a thorny and critical issue that could derail Malaysia's shopping industry progress. The Act which seeks to control mall management to the confines of valuers will be a step backward and a shackle to move forward. PPKM will continue efforts in lobbying intensively against such archaic legislation.

The shopping industry role is certainly not meant to be compromised as under the government's Economic Transformation Programme (ETP), tourism and wholesale & retail (in which shopping industry plays a pivotal role) are two National Key Economic Areas (NKEAs) that will need to grow significantly to propel Malaysia into a high income nation. For us in the shopping industry, there is much to do.

In the Asia-Pacific arena, we have also made headway by establishing new contacts with Korea Building Owners and Managers Association (KBOMA) and hope to renew our ties with Shopping Centre Council of Australia. With our members' participation, we hope to make our presence felt at the upcoming Council of Asian Shopping Centres (CASC) Conference 2011 which will be held in Jakarta in October 2011 .

It has indeed been a very hectic year of exciting events, training and certification courses to stimulate the mind as well as a glamorous gala dinner which brought together all shopping industry practitioners.

The Priceless Gems Gala Dinner held in October 2010 saw a record of more than 850 guests present, from shopping centre management personnel to our retailers and service providers, certainly an excellent platform for all to network and form and strengthen business relationships.

It is my earnest wish that we continue to work closely together to elevate shopping mall management to yet another level!

Yours sincerely

H C Chan
President

BUDGET 2011:

Joint Press Conference on Duty Free Merchandise

A Press Conference was jointly convened by PPK Malaysia, Malaysia Retailers Association (MRA) and Malaysian Retailer-Chains Association (MRCA) to announce the industry's sentiments pertaining to the announcement of duty free merchandise across more than 300 tourist related items. All felt that this was a good move in the right direction to position Malaysia on the tourists' shopping map so that we will be more competitive regionally. Kudos to the relevant government agencies !

Valuers, Appraisers and Estate Agents (VAEA) Act 1981

In the continuing pursuit of lobbying against detrimental effects on property management from the proposed amendments to VAEA, Building Management Association of Malaysia (BMAM) held a press conference on 29 September 2010. This was attended and well covered by the press from various media. In attendance were:

◀ L to R : Richard Chan, BMAM Committee Member (Ex-officio)/PPKM; DK Hansara, Malaysia REITs Managers Association; Ir Lee Weng Onn, BMAM Vice President / Institution of Engineers, Malaysia (IEM); HC Chan, PPKM President; Datuk Eddy Chen, Real Estate and Housing Developers Association (REHDA) and Dato CK Teo, BMAM President/Associated Chinese Chamber of Commerce and Industry Malaysia (ACCCIM)

Update:

Following a recent meeting with YB Datuk Seri Ahmad Husni Hanadzlah, Finance Minister II on 7 October 2011, it was understood that the amendments to the VAAE Act affecting property management would be put on hold pending further meetings with industry players to resolve ongoing issues. Together with BMAM, PPK will continue to heighten awareness for the right of all qualified personnel to practice shopping centre management.

Footnote:

With assistance from our Northern Region representative, BMAM organized a public *Forum on Building Management* in Penang on 20 November 2010 to create awareness amongst practitioners in the Northern Region.

Property Management – Time Bomb ? 9 December 2010

Jointly organised by FIABCI Malaysia and PPKM for the 5th year running, the seminar at One World Hotel, Petaling Jaya, attracted over 370 delegates. Despite regulations to govern and control joint management bodies (JMBs) and management corporations (MCs), delegates discovered that many issues remained in property management eg. service charge collections. One current topic which elicited many queries was on gated and guarded properties, drawing as many proponents as well as detractors, and the issue remains ongoing.
