Marketing & Leasing

In this constantly evolving market, you need to stay in touch with the evolution of the shopping mall industry. Learn of the humble beginnings of the Malaysian mall industry, its definitions and how it has evolved to become global icons and landmarks.

Marketing

Understanding what marketing is and the roles it plays for a shopping mall is pivotal for its success. You will learn the fundamentals of marketing and gain insights into the formulation of a marketing plan and budget. The marketing mix of events, sales promotions, visual merchandising and media will be discussed and how it can be used cohesively to execute the plan.

Today's competitive environment has forced malls to communicate effectively and persuasively. Learn how to design a good communications programme and the foundation for a crisis communication plan.

Advertising

Be introduced to the world of advertising and the principles of an effective campaign. This session equips you with the knowledge of an effective plan using different types of media to drive results.

Market Research

This session teaches you the objectives of research design and data in mall development. Research allows for the understanding of consumers and prepares you for better decision making.

Leasing

One of the critical success factors for a shopping mall is good retail and tenant mix. Learn the basics, roles, terminology and procedure of leasing a store. You will be given insights into the strategies for good tenant selection, tenancy mix to layouts. This interactive session with case studies will enable you to solve conflicts and provide resolutions to lease situations.

Fit Out and Design

Mall and store designs have become icons that shaped cities and towns. Learn the correlation between leasing, fit-out and design and how consumers' changing habits have shaped the retail spaces in malls.

Operations & Maintenance

Safety and Security

In this session, you will be exposed to all aspects of safety and security practices in malls. The Command centre and Control system operations will be outlined along with the procedures for an ERT (Emergency Response Team). A mall tour will be organised for a site learning experience.

Mechanical and Electrical (M&E)

An integral component to mall operations is the M&E systems. Learn the terminology and systems operations of the air conditioning and ventilation systems that impact your mall's common spaces, retail stores, car park and more. Case studies will be presented to demonstrate the systems and its link to the mall.

Energy Savings and Managements

With the electricity tariff increase, malls are proactively taking steps to go green and stay sustainable. Find out more on energy saving practices and how to convert malls into energy efficient buildings. Discover how energy audits are performed to keep energy consumption at the most cost-effective level.

Housekeeping

Housekeeping is important in creating a conducive, hygienic and well-maintained shopping environment for shoppers. Gain insights into how to maintain a good housekeeping standard to get the best out of your mall's service contracts.

Car Park Management

All you need to know about managing a quality car park. From equipment, payment methods, signage, cleaning, security controls of staff, for you to

make the best assessment for your car park operations.

Maintenance Plan

Learn all about the mall's reactive, preventive and predictive maintenance plans and its advantages. A good plan is essential to ensure the most cost-effective way to maintain our malls in the long term.

Administration

Managing Industrial Relations and Disputes

Setting KPIs (key performance indicators) for employees is important to drive results. Learn how to create efficiency, innovation, and networking within your workplace to charter staff growth.

This session addresses issues related to work misconduct, poor performance and disputes and how to manage it effectively.

Effective Organizational Control

Having a company vision and effective control in an organization is a driving force for success. By providing a clear understanding of the employees' roles, the team will work cohesively and motivate change as a tool for innovation. Malls must stay effective in the face of competition and promote good organizational culture.

Insurance-An Essential Need

A review on why malls need insurance and the various types to cover mall management and operations. Understand what are the consequential losses due to mall incidents, the associated risks and how essential insurance is for a mall management.

Management of Litigation

A number of questions arise from what happens if a lawsuit were to happen. In this session, you will be exposed to various types of legal actions that can happen in a mall environment. Past cases will be reviewed for a clear understanding of litigation matters.
